

## **Conservation Intern**

**Department:** Conservation

**Intern Title:** Conservation Intern: Outdoor Sculpture

**Overview:** Two outdoor sculpture conservation internships are available this summer. The main focus of the internships will be to examine and document the approximately 20 outdoor sculptures at the Center of the West. The interns will then carry out maintenance steps such as cleaning and coating. The interns will function as members of the conservation department and will carry out their own examination, documentation, treatment, and dialogues with curatorial staff. The Center is planning on carrying out a very complex outdoor sculpture treatment with the help of a contract conservator. The two sculpture interns will be helping to carry out this treatment.

**Level of responsibility:** Reports to Chief Conservator

**Qualifications:**

- The qualified interns will have ideally completed at least one year of a master's program in conservation and be headed towards a major in objects conservation.

**Institutional Goals and Benefits:** To participate in the training of conservation professionals. Further the conservation treatment of Center of the West collections.
