

Internet Interpretive Education Intern Job Description

Department: Interpretive Education

Intern Title: Internet Interpretive Education Intern

Overview: This internship is designed for students looking to gain experience in museum interpretation with particular focus on virtual environments. The intern will be asked to assist in the development of a virtual environment incorporating 3D graphics, 360 photography and virtual reality applications including links to the Center's website and other assets. Preferred candidate will have experience with virtual environments, gaming engines, or have training and expertise in computer science or 3D graphic design.

Specific Duties and Responsibilities:

- Assist in the development of a virtual environment for the Plains Indian tipi and attendant links to ancillary information.
- Interface with the graphics department to provide texture and visuals "fleshing out" the virtual animations.
- Interface with the IT department for logistical support.
- Collaborate with Interpretive Education staff in planning and execution of the virtual environment.

Qualifications:

- Successful candidate should have completed at least 2 years of college.
- He/she must have a strong interest and experience in virtual environments (e.g., Second Life, open simulator), gaming, 360 photography, VR and/or 3D graphics.
- Candidate should be pursuing a degree in Computer Science, Graphic Design, Visual Media, or a related degree.
- He/she should have the ability to work independently and collaboratively.
