## POST-VISIT ACTIVITIES

### Make a Plains Indian Parfleche

refer to Teacher and Student Resources at <https://centerofthewest.org/learn/school-programs/teacher-and-student-resources/> to download the directions and template for this activity

### Build a Home

*Materials: drawing or construction paper, crayons, markers, colored pencils*

Have students draw or construct a model of their own home and yard. Provide time for students to show their classmates the differences between their model home and the tipi they made while at the museum.

### Using What Is Around You

*Materials: pictures of woodland, beach, and plains habitats, habitat resources, drawing or construction paper, crayons, markers, colored pencils*

Show students pictures of different habitats that make up the United States, such as woodlands, beaches, and plains. Think about including pictures that also represent Hawaii and Alaska. Explain that they are going to design a home that is appropriate for one of these habitats. Work with students to help them identify the resources that include information about these habitats. Have students brainstorm what they would need to build their home if they could only get materials from their environment. Ask students:

- What would your home look like?
- What materials would you use to make your home?
- What tools would you use to make your home?
- What would you call your home?

Allow students to create a drawing of their home. Finish by showing students different homes that American Indians have lived in such as wigwams, longhouses, earth lodges, igloos, etc. Explain to students that now Native Americans live in homes just like they do.
