Winchester

The Winchester serial number records are found in two different sets of ledgers. Warehouse (W) ledgers contain configuration information and manufacture dates. Serial Number Application (SNA) ledgers detail the date on which serial numbers were applied.

Letters appearing at the end or near Winchester serial numbers are not part of the number, not reflected in the records, and therefore will not appear on searches or letters. Small ranges of blank records occur in the Warehouse records for most models. These gaps may not be reflected in the ranges below.
